Computer Science graduate with Java software development and technical Business Analysis experience. Engineered agentic AI orchestration workflows at a global custodian bank and supported operational improvements at a Fortune 100 manufacturer. Targeting a software engineering role in financial technology.

- Java, Spring Boot
 - REST APIs, Microservices
 - Python, C++, JavaScript
- MySQL, PostgreSQL
 - NoSQL (MongoDB)
 - Agile / Scrum
- Angular, React
 - LangChain / LangGraph / MCP
 - AWS, Docker

EDUCATION

Computer Science with a Year in Industry BSc • **University of Birmingham** Sep 2022 – Jul 2026

- **Key Modules:** Intelligent Robotics, Evolutionary Computation, Security & Networks, Teaching Computer Science in Schools, Artificial Intelligence, Full Stack Development, Systems Programming | **1st Class**
- **Societies:** AFNOM (A Finite Number of Monkeys - Hacking Club) and UBrobotics

A-levels • **St. Paul's Catholic School, Leicester.** Aug 2020 – Jul 2022

- **Subjects:** Computer Science, Mathematics, Physics, Economics | **A*, A*, A*, A**

PROFESSIONAL EXPERIENCE

Software Engineer (Internship) • **BNY • Manchester** Jun 2025 – Aug 2025

Core engineer on BNY's Client Onboarding platform, building microservices and AI-driven automation.

- Engineered Agentic AI workflow via Java Spring Boot microservices to process institutional client data.
- Eliminated a client onboarding bottleneck, slashing an account activation stage from days to minutes.

Business Analyst (Placement) • **Caterpillar • Peterborough** Jul 2024 – Jun 2025

Gathered requirements & supported software delivery to standardise and streamline internal office workflows.

- Led an onsite continuous improvement initiative dedicated to streamlining internal IT processes.
- Reduced Project Management Office admin overhead by 60% via process automation & standardisation.
- Safeguarded £50M contract by validating & delivering cyber certification compliance evidence.
- Developed a data visualisation platform to aggregate and analyse employee engagement metrics.
- Strengthened operational resilience by documenting disaster recovery procedures as onsite DR Liaison.

Code Sensei • **Code Ninjas • Leicester** Jul 2023 – Apr 2025

Delivered classes & workshops. Taught students aged 5–16 to code using Scratch, Luau, JavaScript & C#.

- Achieved 100% trial-to-student conversion from taster sessions.
- Inspired interest in hardware programming through leading Arduino & LEGO robotics workshops.

ADDITIONAL EXPERIENCE

Computer Science Teaching Assistant • **Holte School • Birmingham** Feb 2026 – May 2026

Teaching Intern • **Bishop Challoner Catholic College • Birmingham** Jun 2024 – Jul 2024

Computer Science Outreach Ambassador • **University of Birmingham** Apr 2024 – Aug 2024

Sales Assistant • **British Heart Foundation • Leicester** Jun 2023 – Aug 2023

Tutor • **My Learning Room • Remote** Jan 2023 – Jun 2023

Production Operative • **HelloFresh • Nuneaton** Nov 2022 – Jan 2023

LEADERSHIP & ACTIVITIES

- **Volunteering and Outreach:** Supporting STEM events, giving talks at local schools, and helping students secure work experience in STEM Ambassador and Teaching Assistant roles.
- **Diversity & Inclusion:** Co-founded Caterpillar EDGE (Ethnically Diverse Group of Employees) ERG.
